on call of President Huerta to discuss questions relating to future conduct of the candidates.

As a result of the conference General Huerta announced his intention to make formal proclamation embodying the agreements arrived at. These, in general terms, are that the candidates abide by the results of the voting. Should any candidate be shown to have polled enough votes to constitute an election, the others are to assist him in pacifying the country and placing it on a sound financial and industrial basis. Should there not be enough votes cast to fulfil the requirement of law, and the elections for that reason be declared of no effect, all concerned are to aid General Huerta in every way possible to accomplish the same ends, pending the calling of new elections.

The conferences were attended by Federico Gamboa, presidential candidate for the Catholic party; David de la Fuente, liberal republican; Manuel Calero, candidate for the liberal party; Jose Maria Requena, vice presidential candidate on the ticket with General Felix Diaz; General Eugenio Rascon, Dr. Gregorio Mendizabal, Jesus Flores Magon and other vice presidential candidates.

All are said to have pledged themselves to the agreement. The law provides that one-third of the total number of eligible voters must vote in order to make an eligible election.

ALLEGED ARMY TO DESERT

DOUGLAS, Oct. 25.—Severance of the federal army from Mexico City is due to occur tomorrow, according to rebel advices tonight from Hermosillo. It is stated that specific knowledge is possessed, though the exact nature is not told.

Gen. Carranza reiterated today his previous assertions that in no circumstances would he participate in the elections tomorrow, nor admit that any election can legally be held at the present time.

This was occasioned by the arrival in Hermosillo of Bernardo Calero, campaigning in the interests of the candidacy of his brother. He sought an audience with Carranza but was refused.

General Felipe Angeles assumed his duties today as sub-secretary of war in Carranza's cabinet. Advices from Governor Viveros, of Sinaloa, said the entire southern part of the state is in the hands of the rebels.

A force of federals was repulsed with reported loss of 300 yesterday, when they attempted to move south from Mazatlan.

PRINCETON.—Dartmouth fulfilled the expected this afternoon, winning 6 to 0 from Princeton. Llewellyn, who had replaced Ghee for Dartmouth, took the ball himself around Princeton's right end for the only score.

ANTI-TUBERCULOSIS CONFERENCE

BERLIN, Oct. 25.—Twenty-eight countries are represented by delegates at the 11th International Anti-Tuberculosis Conference which opened yesterday and will remain in session until Sunday. One of the most interesting features of the conference will be the reports from the various countries represented as to the methods employed for waging war upon tuberculosis and the results achieved by these methods. Although no positive "cure" for the disease can be reported, encouraging progress will be recorded toward the control of the disease by natural restorative means, food and fresh air, and by modern methods of sanitation, disinfection and isolation.

Dr. F. F. Friedmann, the alleged discoverer of a curative serum, did not apply for a place upon the program and it is expected that no great enthusiasm will be manifested by the delegates to the conference concerning his turtle serum. The delegates will be given an opportunity, however, to see and to examine the patients on whom Dr. Friedmann based his original claims of success.

Captain Inch and his dog Jack.

Captain Francis Inch, commander of the lost Volturne, is now in the United States. He tells with great modesty the story of his deeds on board the burning vessel, and shows greater interest in his dog Jack, the ship's mascot, than in any story of his heroic work in the hours of peril on the sea.

The unwritten law of the seas which bars a captain who loses his ship from being given another command will not be applied in his case.
